DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Karg (US 5,957,149).

Regarding claim 12: Karg teaches a fluid diverter valve 10. The diverter valve comprises a housing 12 with an internal top surface and an internal bottom surface and a valve ring contained in said housing wherein said valve ring moves to the internal bottom surface on the application of a vacuum to the housing, see Figs. 1 thru 4 and col.3 lines 1-14.

Regarding claim 13: The diverter valve of Karg further comprises a plurality of tubes (outlet ports 17 and 18) connected to the internal bottom surface wherein the valve ring covers the plurality of tubes when a vacuum is applied to the housing, see col. 4 line 1-36.

Regarding the types of fluids used to active the valve this limitation is not given patentable weight as the valve by Karg is inherently capable of using water and or nitrogen to activate the valve.

Response to Arguments

Art Unit: 1763

3. Applicant's arguments with respect to claims 12 and 13 have been considered but are unpersuasive. Specifically, the argument that the spring holds the top of the valve in place, see fig.5 and col. 7 lines 30-41 wherein the spring has been eliminated and a flexible diaphragm is discussed.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
